MISSION

The New York Academy of Art is a graduate school that combines intensive technical training in the fine arts with active critical discourse. We believe that rigorously trained artists are best able to realize their artistic vision. Academy students are taught traditional methods and techniques and encouraged to use these skills to make vital contemporary art. The Academy serves as a creative and intellectual center for all artists dedicated to highly skilled, conceptually aware figurative and representational art.

CERTIFICATE OF FINE ARTS PROGRAM

The New York Academy of Art Certificate of Fine Art (CFA) Program is a twelve-month, 36-credit studio sequence that provides students the opportunity to develop their personal vision and specialized skills within an active and inspiring environment. The CFA program is designed for those seeking intensive instruction in drawing, painting and sculpture and interested in engagement in critical discourse. The CFA program will provide the student with a strong body of work for graduate admissions and lay the foundation for their career as a practicing studio artist.

CURRICULUM

The CFA curriculum emphasizes mastery of traditional techniques and practices as well as learning about current art methodologies and critical discourse. The achievement of these goals allows students to develop an authentic visual language to communicate their personal vision, resulting in technically and formally sophisticated work that is engaged with the contemporary art world. Central to the curriculum is the study of figurative and representational art and the reinterpretation of traditional methods for the contemporary artist.

FACULTY

The Academy's CFA faculty have extensive exhibition, publication, award and grant history and a variety of professional affiliations. The low student-faculty ratio (2:1) provides students with ease of access to instructors and a highly individualized education.
